DESCRIPTION AND PURPOSE OF ITEM

This item identifies the mainline Key Route Station (Item 7), along the direction-of-inventory, at which the appurtenance is first encountered.

This information is used, in combination with the other Key Route elements, to uniquely identify each highway.

This item can be determined from the appropriate 5-Year Classification Map, County General Highway Key Map, Municipal Street Number Map, or county highway resolution. If in question, contact the district Bureau of Program Development.

Note: This item is recorded on IRIS and transferred, by computer, to ISIS Key Route Appurtenance Number (Item 1F) and IRRIS Key Route Appurtenance Number (Item KRIT174).

CODE AND SCREEN ENTRY INSTRUCTIONS

A 5-digit, 3-position decimal number.

Note: The Key Route Appurtenance Number is recorded in thousandths of a mile. The thousandth's (right-most) position is always zero.

Enter the appropriate number, filling leading spaces and right-most position with zeros.

For ramps, this station is derived by locating the midpoint between the 1 ft stub and the nose of the ramp.

This item must be entered only when Key Route Appurtenance Type (Item 4) is greater than zero.
